Available for roles and projects.

Hi, I am Muhammad Nabil

# Web & UI Designer based in Cilegon, Indonesia

**Intro:**

With a strong foundation in Computer Science (GPA 3.82) from Bina Bangsa University, I am a Web & UI Designer passionate about UI/UX, graphic design, and web development. I specialize in creating modern, user-centered interfaces using Figma, HTML, CSS, PHP, and JavaScript. My portfolio includes interactive websites, mobile UI design, and Graphic Design. I am committed to pushing the boundaries of interactive design and front-end innovation.

Uber Eats is a food delivery app that connects users with local restaurants and couriers for fast, convenient ordering. It offers real-time tracking, multiple payment options, and delivery or pickup services, with frequent discounts available.

## Uber Eats

**What** I did?

Graphic Design · Wireframing · Journey Map · UXR · User Interface · User Experience · Design System · Prototyping

Many people struggle with finding convenient and reliable meal options. Uber Eats offers features that make it easy to discover, order, and enjoy your favorite food—delivered fast, anytime you need it.

**Bringing the best restaurants to your doorstep**
**quick, convenient, and just a tap away.**

**Endless Food Choices, Anytime.**

Discover a world of flavors and enjoy seamless ordering with Uber Eats—bringing your favorite meals to your doorstep, anytime you crave them.
